Subject: Re: New enquiry posted on HP Agilent 1100 Series G2258A DLA Dual Loop (Thermostatted) Autosampler

Hello Christopher,

I will be assisting you with this item. We can offer you a refurbished Agilent G2258A Dual loop autosampler for \$5450 USD, shipping and handling \$225. A 90 day warranty is included.
Are you looking to purchase soon, or just comparing prices at the moment?

We strive to offer peace of mind, and not simply a piece of equipment. I'd like to mention that all of our instruments are immediately available from our warehouse, and can be ready to ship within days. If you have any further questions, please let me know. We'd be happy to move forward with you.

Best regards,
Ian Yang
